**TURN YOUR
EVENT
EXPERIENCE
INTO
BOTTOM LINE
RESULTS**

Jean Marie is a master at turning knowledge into an experience that leads to immediate action. Her effortless networking and connection exercises got everyone buzzing and collaborating at a deeper level. Her facilitating style is engaging and inspiring and invites you to participate and learn because you want to. Not because you have to."

~ Johanna Lyman, Past President, Boston Women's Network

Bring Experiential Learning to your Events for Attendees to...

Connect with Meaning

Highly experiential exercises to kickoff the event, the morning or each day or following a lunch break where attendees make deeper connections, learn about each other beyond traditional networking and close with actions to follow-up.

Mastermind, Collaborate & Create

Highly experiential group exercises that allow attendees to raise challenges and get new ideas, perspectives and solutions to their challenges through collaboration and sharing. The premise is two (or four) heads are better than one. New partnerships and future collaborations naturally get formed as a result.

Lock in the Learning for Real Results

Focused experiential exercises that identify and uncover key learning and takeaways from the event and clear steps to put the learning into action. Attendees learn fun ways to lock in the learning and create accountability so that the learning from the event creates immediate results.

Your Event Success

The true measure of success is not just what members and attendees learn at your event. It's who they connect with, the collaborations they form and the actions they take after they leave. Book Jean Marie to help turn your event experience into bottom-line results that leads to increased membership, renewals and immediate future event registrations.

Biography

Jean Marie is a Master of Experiential Learning bringing over 25 years of Speaking, Training and Facilitation experience to events across the globe. She combines concrete tools with engaging experiences putting the tools into immediate action. Her warm and engaging style creates a safe and welcoming environment for all to engage.

If you are looking to create a stand-out event that delivers experiences beyond what attendees thought was possible, schedule a Consultation with Jean Marie to discuss your event goals and customize memorable experiences that lead to immediate results.
